Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. These targets relate to scope 1, 2 and a subset of scope 3 emissions: transmission and distribution losses, upstream transportation and distribution, waste, business travel (including hotel stays) and employee commuting (excluding homeworking).

In order to remain on track to achieve Net Zero by 2050, carbon emissions in 2029/30 would have to be 160 tCO₂e, a reduction of 40% from the 2019/20 baseline year. The Careers &

homeworking. Typically, the reduction in commuting emissions outweigh any increase in homeworking emissions.

The Careers & Enterprise Company has also implemented a cycle to work scheme intended
